

ESM Feature Highlight:

Proactive Email Alerts

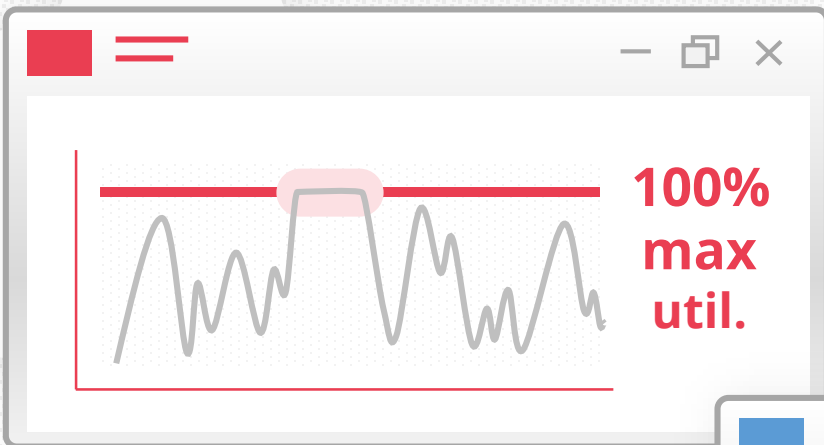

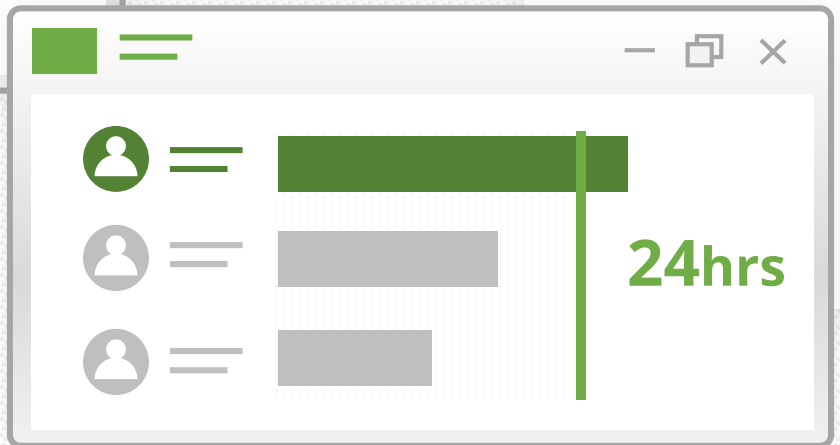

WWW.OPENIT.COM

Approaching Max

Alerts admin when licenses of specified software are about to be maxed out

Long Checkout
Sends email to admin and/or users of software licenses that are checked out for too long

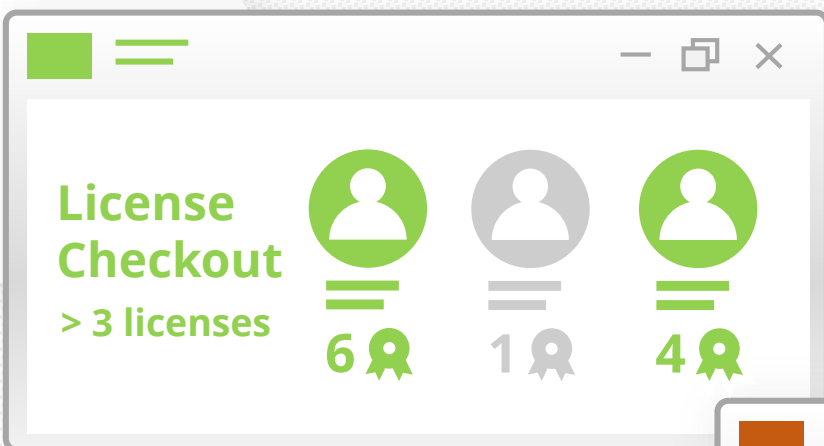

Sustained Max per Hour

Notifies the admin when the max license utilization is sustained for an hour

License Expiration
Emails the administrator of software licenses that are about to expire

A window with a blue header showing a table of license expiration dates. The text 'Expiration <= 60 days' is displayed at the top of the table.

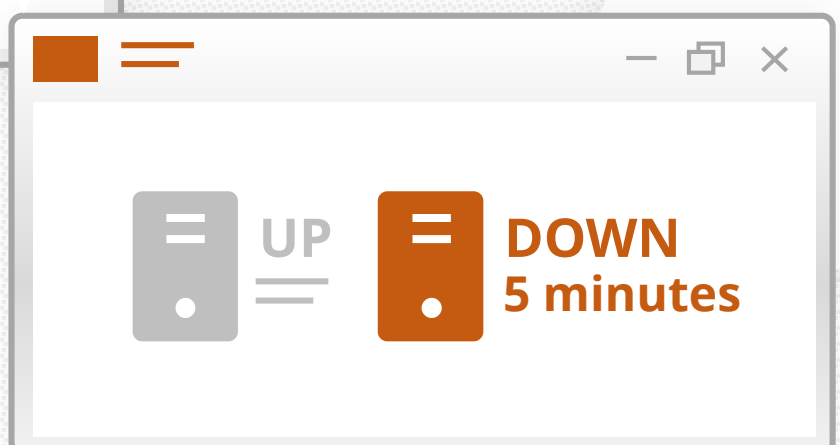

Feature	Days	Expiration Date
Feature A	78 days	20XX-XX-XX
Feature B	28 days	20XX-XX-XX
Feature C	5 days	20XX-XX-XX

License Hogs

Notifies when users have checked out multiple licenses at the same time

License Daemon Down
Alerts admin when there's a problem connecting to the license server/daemon for a specific period of time
