

WEBINAR

Open iT Experts:

Top 7 Features to Look for in v9.17

LinkedIn Live

Wed, 15 June 2022

10AM CEST | 11AM IDT

11AM CDT | 1PM BRT

Ace Silvestre Lopez

Solutions Engineer

About the Speaker

Solutions Engineer

- Specialization:
 - IT Resource Analysis
 - Software License Management
 - License Optimization
- Supports Companies under these Industries:
 - Energy
 - Engineering
- Business Apps Expertise:
 - SAP®

Solutions Engineer

Top 7 Features to Look for in v. 9.17

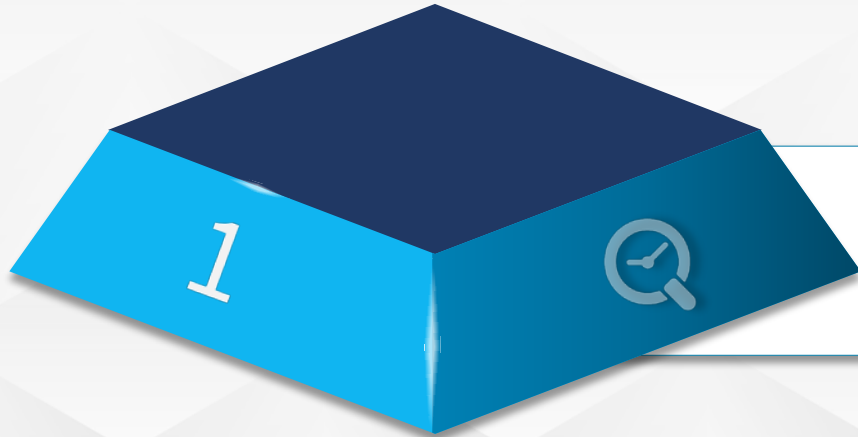

Open iT Flagship Solution

LicenseAnalyzer 2022

Level 1, Level 2, & Level 3

LicenseAnalyzer™ 2022

Runtime Usage

Meter & Report Check In/Out of License Manager – enabled applications | Meter & Report on Standalone and web-based application | Proactive Alerts | Real-time License Monitor | Dashboards | Periodic Reports

LicenseAnalyzer™ 2022

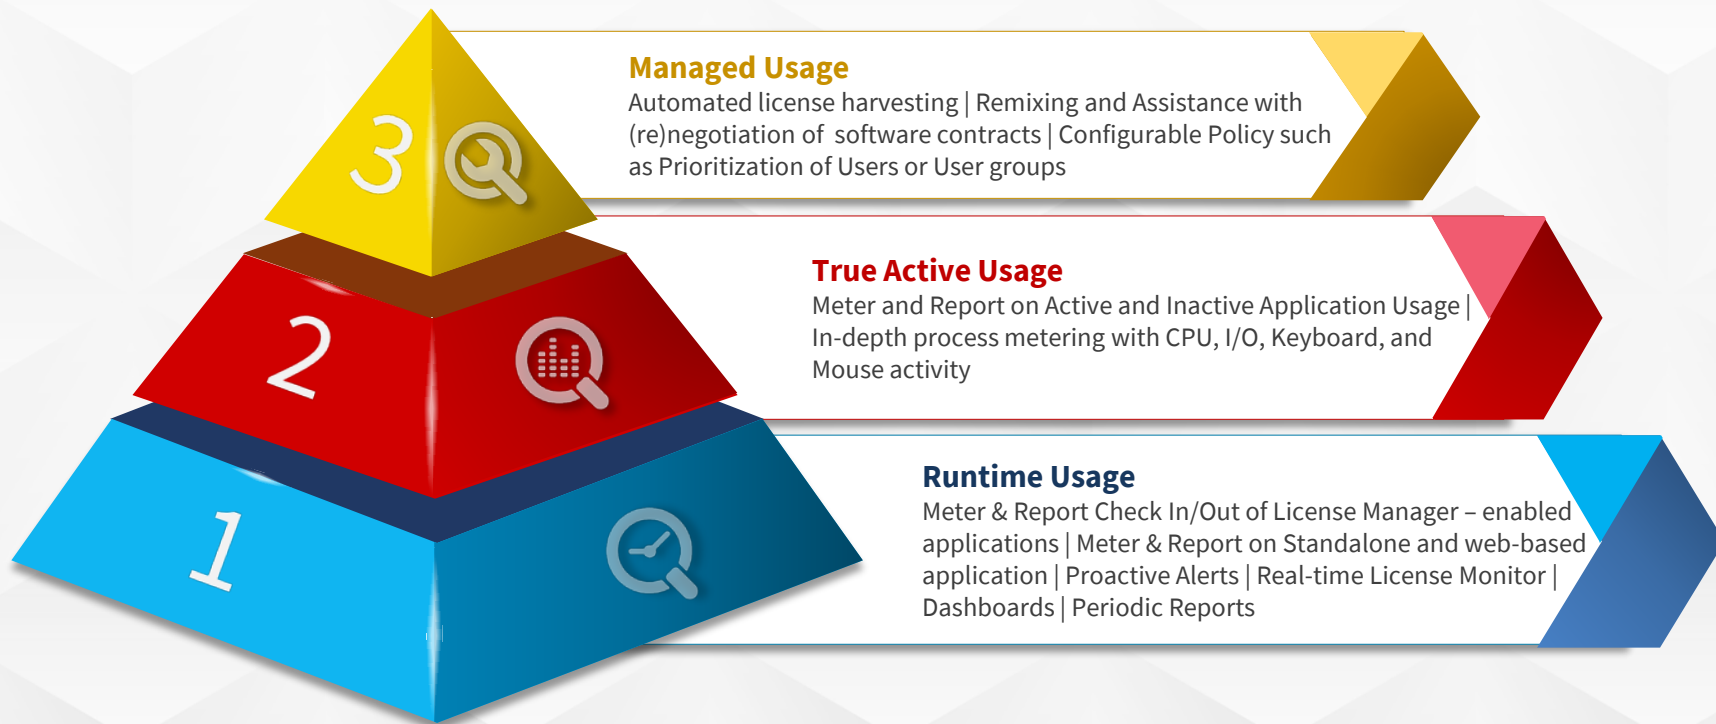

True Active Usage

Meter and Report on Active and Inactive Application Usage | In-depth process metering with CPU, I/O, Keyboard, and Mouse activity

Runtime Usage

Meter & Report Check In/Out of License Manager – enabled applications | Meter & Report on Standalone and web-based application | Proactive Alerts | Real-time License Monitor | Dashboards | Periodic Reports

LicenseAnalyzer™ 2022

Metering and Analysis

1

Support for SaaS Applications

Support for SaaS Applications

- License Ownership vs Installation/Assignment vs Usage
- Current License Agreement vs Other Agreements
- Compliance Checkup
- License Optimization and Cost Reduction

2

Support for Autodesk Cloud Named-User Subscription & Flex

Introducing Open iT Data Monitor and Alerts

Introducing Open iT Data Monitor and Alerts

The image displays the Open iT Data Monitor and Alerts interface. On the left, a sidebar shows the 'Data Monitor' section with a bar chart and a table of data. The main area is titled 'Create Dashboard' and features a list of available portlets on the left and a 'Select Layout / Add Portlets' area on the right. Two red arrows point to 'Data Overview' and 'Data Trend' in the portlet list. The 'Data Overview' portlet shows a bar chart of missing data files, and the 'Data Trend' portlet shows a line chart of data usage over time.

Product Mapping

Mapping Products

Product mapping creates a new virtual product to the existing ones. Use this when several raw product names pertain to a single product only.

- Map Name
 - The target value after mapping (value to map to) or the combined product names.
- Sources
 - The source values for mapping (value to map from) or the individual product names.
- Start Date
 - The starting limit when maps and source values are valid.
- End Date
 - The end limit until when maps and source values are valid.

General Mapping Rules:

Edit a Map

Map Name

Start Date

End Date

Sources

Source Name	Start Date	End Date
*ugslmd 3 matches	mm/dd/yyyy	mm/dd/yyyy
*pam_lmd 4 matches	mm/dd/yyyy	mm/dd/yyyy
*cdslmd 3 matches	mm/dd/yyyy	mm/dd/yyyy

Introducing One Portal

The screenshot displays the OpenIT Module Activator interface, which is used to manage and activate product modules for different client groups. The interface is divided into several sections:

- Module Activator:** The main header section with a 'Publish' button.
- SELECT GROUP:** A section on the left with tabs for 'By Group' and 'By Module'. Under 'By Group', there are options for 'Level 1', 'Level 2', 'Level 3', and 'Sample'.
- ACTIVATED MODULES:** A central section showing a list of modules and their activation status. The table has columns for 'Hostname', 'Group', and 'Activated'. The 'Activated' column contains buttons for 'Activate' and 'Deactivate'.
- Level 1:** A section at the bottom left showing a list of affected clients. It includes a table with columns for 'Hostname', 'IP Address', 'Version', and 'Activated'.
- New Group:** A modal window on the right titled 'New Group' with a green checkmark. It contains a 'Sample Group' input field and a list of modules to be activated for the new group. The modules are: LicenseAnalyzer (checked), LicenseOptimizer (checked), FreezeMonitor (unchecked), ApplicationMonitor (unchecked), Enable Data-Logging (unchecked), Browser Log Collection (unchecked), Raw Data Collection (unchecked), StorageAnalyzer (unchecked), and SystemAnalyzer (unchecked). At the bottom of the modal are 'Reset', 'Cancel', and 'Save' buttons.

Hostname	IP Address	Version	Activated
