

July 16, 2026 | Bangkok Marriott Marquis Queen's Park

**You're in the room.
Now let's make it count.**

Welcome to the first-ever Software Intelligence Forum in Thailand.
An invitation-only gathering of Engineering, IT, and Procurement leaders
built around real conversations and outcomes you can act on.

WHY THIS FORUM EXISTS

Engineering teams cannot optimize what they cannot measure. Procurement teams make decisions without the full picture. IT leaders are expected to govern software environments that grow more complex every year.

Open iT built this forum because this conversation is overdue. It is better to have it with peers in the room than with vendors on a sales call.

OPEN iT'S FIRST FORUM IN THAILAND

For nearly 30 years, Open iT has helped engineering and IT organizations around the world take control of their software assets. Now, we're bringing that conversation to Bangkok.

Founded in 1999, Open iT is the global leader in Engineering Software Asset Management.

25+ Years

of engineering SAM expertise

Industry Leader

Software Asset Management,
SPARK Matrix, Q3 2025

Global Reach

Customers across the Americas,
Europe, Africa, and Asia-Pacific &
Middle East

Purpose-Built

Designed for engineering software:
Ansys, Autodesk, MATLAB

You can't govern what you can't see.

This forum is where visibility becomes value.

WHAT TO EXPECT

A full day designed around you.

Every session has been built with one goal: give you something you can act on when you return. Just focused conversations, real case studies, and peer exchange that only happens when the right people are in the same room.

FORMAT

Full-day forum
30 to 40 senior attendees
Keynote, peer presentations, panel discussion, and dedicated networking

WHO IS IN THE ROOM

Engineering Leaders
IT Asset Managers
Procurement and Licensing
Decision-Makers
